

# OXACID POWDER

## ACID DESCALING POWDER FOR FABRIC RESTORATION

- Descaling action on fabrics and the machine
- It improves and restores fabrics
- Also ideal for rust removal

Powder acid descaling additive specific for restoring fabrics, both white and coloured, which have aged and/or yellowed due to numerous washes that have diminished the whiteness and brilliance of the colours over time.

Can be used for the automatic washing of fabrics, with any water hardness, with a specific washing cycle on already washed fabrics and without the use of any other product in the machine.

Can also be used for:

- restore dirt that cannot be removed by normal washing, on fabrics from environments such as kitchens, restaurants, workshops (including table linen, dishcloths, fringes) for the removal of stains of mineral origin or due to metal deposits (e.g. rust, aluminium oxide verdigris, etc.);
- perform a shock treatment to restore linen with yellow and/or pink, grey/black stains fixed over time and where the use of POLYS EXTRA is not sufficient;
- make a descaling action in the machine, also restoring the thermal capacity of the heating elements.

## HOW TO USE

Use on fabrics already washed with a specific wash.

- Introduce the powder directly into the drum of the machine, without using any other product. Make a 40-60°C wash with a minimum duration of 20 minutes. If necessary, fabric softener can be used in the last rinse.

For further information please contact the Sutter Professional technician.

## OXACID POWDER

### DILUTION

20 - 50 g per kg of laundry.  
Dose according to the type of dirt.

### TECHNICAL DATA

**ASPECT:**

**COLOR:** White
