WAREDOSE 35 - 2 PUMPS

INTERNET-CONNECTED DOSING SYSTEM FOR DISHWASHERS (DETERGENT AND RINSE AID)

- **Internet-connected system for statistics and remote programming**
- **Programmable via dedicated app**
- **Modular system**

Dishwasher peristaltic dosing system for Detergent and Rinse Aid connected to the internet, with 7.5 L/h flow rate for Detergent with peristaltic Santoprene tube and 1.2 L/h for Rinse Aid with Sekobrill peristaltic tube.
"Sutter Professional" customised system with multi-line display and 100/240 Vac power supply.
The Detergent and Rinse Aid can be set in two ways: speed proportional and time volumetric.
Thanks to accessories and expansion modules, which can be purchased separately, the system can set the Detergent dosage with conductivity mode using Code 806146 - WAREDOSE 35 - CONDUCTIVITY KIT or inductive mode using Code 806147 - WAREDOSE 35 - INDUCTIVITY KIT.

One of the advantages of this system is the possibility of connecting it to the internet via Wi-Fi and therefore the possibility of accessing and programming it from a smartphone through the dedicated SekoBlue app available on iOS and Android.
By registering the system on the portal, authorised technical personnel can control it, modify its programming parameters and view any anomalies and/or errors reported by the system.
Finally, it is possible to consult statistics and reports, which can also be exported to Excel, CSV and PDF, so that you always have access to the number of washes carried out, the quantity of chemical product consumed and the related costs, even based on specific time periods.
Programming is always protected by a 4-digit password and can also be performed using the buttons on the front of the system, following the instructions on the display, available in 5 languages (Italian, English, French, Spanish and German).
The system also provides an emergency programme in the event of malfunctions of the conductometric/inductive probe, so as to avoid waste of chemical product.

HOW TO USE

Pump operation is activated by the Dishwasher.

TECHNICAL DATA

Further Information: Dimensions in mm: H: 194,5; W: 205,1; D: 132,8.
