

PROMAX 4 L/MIN - 1 PRODUCT LEVER

1 PRODUCT DILUTION SYSTEM FOR BOTTLES - LEVER

- Easy to install, without the need for an electrical connection
- Facilitates the preparation of ready-to-use bottles
- Extremely reliable to guarantee correct dilution

1 product Venturi dilution system for ready-to-use bottles, with 4 L/min flow rate and lever activation. Thanks to connection to the water mains, the product is drawn in the right dose (from 0,5% to 33%). The product delivery percentage can be adjusted using the coloured nozzles provided.

It is possible to customize the Promax by downloading the "Mask" annex. It is recommended to print it on a 120gr paper, to cut and apply it inside the Promax front panel, replacing the previous cardboard.

HOW TO USE

System operation is activated by inserting the bottle in the appropriate tube and exerting pressure on the lever by the operator.

TECHNICAL DATA

Further Information: Dimensions in mm: H: 289; W: 127; D: 98.

NOTES

Watermark certificate. For further information, please see the available technical sheet and contact the Sutter Professional technical service.
