DISPENSER RANGE

MADE IN EU
QUALITY GUARANTEED

UNIQUE, ELEGANT DESIGN
THAT ADAPTS TO ANY SETTING

CarraraProfessional

PART OF THE CC PRO
Carrara Professional BRAND

SEMI-TRANSPARENT BACK
FOR EASE OF MAINTENANCE

The new range of Carrara Professional dispensers reflects the Carrara Group's desire to provide its clients with unique, unmistakable products which combine aesthetics with practicality and efficiency to become an essential part of any Workplace.

Created to satisfy all requirements in the professional setting, the ESSENTIA DISPENSER range offers a comprehensive **array of solutions** designed to **optimise the dispensing of paper towels**, soap, toilet paper and accessories.

With **simple, flowing lines, solid construction and compact dimensions**, the Essentia dispensers are **easy to use and refill**, whilst the **bright colour** of the front panel creates an attractive contrast with the matt backpanel, making them the ideal solution for:

- **Washroom areas** that need to project a high-end image, make the environment comfortable as well as optimise consumption and maintenance.
- **Work areas** which require constant cleaning such as restaurant kitchens or bars.
- **Food and drink consumption areas with medium to high levels of footfall**, such as fast-food points, canteens, cocktail bars.

The smooth surface, transparent back panel and curved shape – a typical feature of the Essentia line – facilitate cleaning and maintenance and contribute to keeping hygiene standards high.

The unique, modern, elegant and practical design works perfectly in both sophisticated and simple settings, whether the environment is minimalistic, rustic or retro. Regardless of the setting, the dispensers bring high aesthetic impact and will tick every box in terms of efficiency, space and image.

MAXIMUM HYGIENE
GUARANTEED

PRACTICAL KEY FOR OPENING AND
